GET READY FOR THE INPATIENT QUALITY REPORTING (IQR) PROGRAM ELECTRONIC SUBMISSION

In August 2015, the inpatient prospective payment systems (IPPS) Final Rule was released requiring electronic submission of four quality measures during either the third or fourth quarters of 2016. Persivia Electronic Submission for Inpatient Quality Reporting and Meaningful Use (Persivia Electronic Submission) can alleviate any worries about meeting the requirements outlined in the IPPS Final Rule.

Persivia Electronic Submission ensures that you are ready. In order to do so, we will analyze your hospital's current Clinical Quality Measures (CQMs) and determine the best set of measures to implement and/or upgrade to the May 2015 R3 version of the measures. We will then produce a QRDA-I file to submit to CMS for credit for the eCQM requirement of the IQR and Meaningful Use (MU) programs. This also includes the production of a QRDA-I file for submission to The Joint Commission (TJC) for those hospitals who are TJC accredited.

PERSIVIA ELECTRONIC SUBMISSION INCLUDES:

- Extracting data out of your Electronic Health Record system
- Recommendations for which measures are best for client submission
- Dashboards for performance review
- Drilldown capabilities to understand your performance results
- Production of electronic file for submission (QRDA-I)
- Submission of QRDA-I files to CMS (MU and IQR) and TJC

The following clarifications were also released:

- IQR will increase number of required CQMs in 2017
- May 2015 R3 version of measures is required
- Submit via QRDA-I format to QualityNet
- Get credit in MU for IQR submission

CONTACT US NOW TO GET READY FOR THE Q3 REPORTING PERIOD

Plan ahead and be sure you are ready to electronically submit. Email info@persivia.com or contact your account representative to reserve your preferred implementation timeline today!
